

The Vashon Hydrophone Project Presents  
**WISDOM IN OUR WATERS**  
Vashon's Whales & Marine Mammals  
Special Guests: MARK SEARS & Wolftown's T MARTINO

*J Pod photo © Mark Sears*

**Orcas, Baleen Whales, Porpoises, Sea Lions, Seals, and Otters**

To Coastal First Nations people, these oceanic icons are honored relatives and venerated teachers.

In fall and winter, **endangered Southern Resident orcas** visit Island waters.

The 2009 season commenced with a Colvos Pass superpod on October 11.

The **VHP** will provide an update on our beloved killer whales. The program features slides of **Vashon-Maury's whales and other marine mammals**, followed by Q & A with **Mark Sears, Orca Annie Stateler, Odin Lonning, and T Martino** – Island experts who document whale encounters and respond to calls about seal pups and strandings.
